

BlockAide Union

BUILDING THE SMART WORKFORCE · PRESS & PARTNER KIT

501(c)(5) Nonprofit · Northern Neck Heritage Area · Virginia · Maryland · Washington, DC

WHO WE ARE

BlockAide Union brings Web3, AI, blockchain and robotics skills to the farmers, watermen, oystermen and crabbers along the Potomac — so the next generation can stay on the water, work the land, and own their place in the digital economy. We deliver hands-on education, certifications and real workforce pathways, built for working people, taught in plain language, tied to the trades they already know.

FOUR TRACKS. ONE SMART WORKFORCE.

- **Web3 & Digital Payments**

Wallets, stablecoins and direct-to-market sales so producers keep more of every dollar.

- **Applied AI**

Practical AI for yields, weather, logistics and small-business operations — no PhD required.

- **Blockchain & Provenance**

Trust and traceability from the oyster bed to the buyer — origin and quality proven on-chain.

- **Robotics & Automation**

Drones, sensors and automation that ease hard labor and keep family operations competitive.

See it working: live on-chain oyster provenance

Scan to trace a Chesapeake oyster batch (CB-OYS-2026-0714) from a Potomac harvest at Colonial Beach to a table in Washington, DC. Every hand-off — harvest, grading, cold chain, transport, retail — links to a genuine, live transaction on the Ethereum blockchain, independently verifiable on the Blockscout explorer. Proof, not slides.
